

CS 465P/565 – Fall 2019

Full Stack Web Development

Assignment 1 - HTML

- ☐ Create a repo for all your in-class assignments, with a **separate folder for assignment #1**.
- ☐ Create an **exercise1.html** file with the following header, input fields, and buttons:

HTML Form

First name:

Last name:

E-mail:

☐ Undergraduate Student
☐ Graduate Student

- ☐ Create an **exercise2.html** file and recreate the HTML elements from one of the following sites (up to 200 lines of code):
 - ☐ <https://www.pdx.edu/>
 - ☐ <https://www.lyft.com/>
 - ☐ <https://slack.com/>
 - ☐ <http://placekitten.com/>
 - ☐ <https://placeholder.com/>
 - ☐ <https://baconipsum.com/>
 - ☐ or your favorite website
- ☐ Create an **exercise3.html** that will be the beginning of your portfolio. Make sure to include:

- ☐ your name and a brief bio
- ☐ header, footer, and at least one section element
- ☐ an ordered or unordered list of links
- ☐ at least three types of headers
- ☐ at least three photo elements
- ☐ a contact form with input elements for email and a submit button
- ☐ Push all your code to your GitHub remote repo. Submit all in-class assignments during week 9.
